## City Council Meeting.

At the regular meeting of the Paris City Council last night, Mayor James M. O'Brien presented the following communication to the board which explains itself:

Paris, Ky., February 27, 1908.

To the Board of Council of the City of Paris, Ky.

At the last regular meeting of this Board, I was instructed to deliver the bonds recently issued for school purposes and deliver them to the purchasers upon the payment of the agreed price. At the same meeting, the following order was made and entered upon the record:

Moved by Mr. Parrish, seconded by Mr. Woods, that the \$42,000.00 remaining from the sale of School Bonds be deposited with the City Treasurer in a special fund called the "City School Building Fund," to be paid out only upon warrants signed by the Secretary and countersigned by the President of the Board of Education, and drawn for the payment of expenses incurred in the building of said school, in accordance with the estimates of the architect. Motion carried. Your instructions have been fully complied with.

A reading of the above mentioned motion—which was made by the Chairman of the Finance Committee, who is thoroughly familiar with all of the details of the financial affairs of the city—will show that it does not undertake to interfere with or to control in any way the authority of the Board of Education; the right of that Board to expend this money for purposes connected with the erection of the school building is left absolute and unconditional. It is equally apparent that it in no way extends your authority to control the expenditure of these funds for school purposes. The only thing which it does undertake is to fix the place where the money is to remain until expended for the purpose for which it was raised. By remaining where it is, it means a saving to the tax-payers of at least six hundred or seven hundred dollars; by changing the place of deposit it means that the profits arising from the use of it will go to a private corporation in which the people, as a whole, have no interest.

The explanation of this proposition is very simple. A glance at the financial statement of the affairs of the city, recently published, shows that on the first day of January, the cash balance on hand was \$3,955.29, and that the amount of interest paid on overdrafts last year was \$657.79. The city practically receives money only twice during the year; on the first of May, when the licenses become due, and during the latter part of October, when nearly, if not quite all of the taxes are paid. Under such circumstances, it is necessary, in order to pay the current expenses of the city, to borrow money, which is always repaid when the taxes are collected. It is upon this, which is usually in the form of an over-check, that the above amount of interest was paid last year. Under the agreement with the City Treasurer, in whose bank the funds are deposited, any money on deposit in which the city has any interest, even though the council has nothing to do with its expenditures, is set off against the over-check and interest paid only on the net balance. For instance, any money deposited in that bank to the credit of the Trustees of the Public Library and any money deposited to the individual credit of the City Collector before being turned over to the treasurer of the various funds such as the School, Library and City funds, are used as a credit against the over-check, although the Council has no control over the expenditure of them. In the present case, if the amount received from the sale of school bonds is left on deposit with the City Treasurer, although it is absolutely at the disposal of the Board of Education, it will fully balance any over-check the city may have during the coming year, thereby saving to the tax-payers a sum amounting to six hundred or seven hundred dollars, which would otherwise have to be paid out for interest charges.

I fully explained this matter to Mr. Dow, the President, and to Mr. Arrsparger, one of the members of the Board of Education with the suggestion that it be presented to that body for consideration. The answer to that request was presented to me on last Saturday, in the form of a demand to turn over, instantly, to the Board of Education the amount received from the sale of the bonds. That demand was presented to me by Dr. Lapsley, the Secretary, and Mr. Arrsparger, one of the members of the Board.

I said to these gentlemen that I had already complied with the direction of the Council and deposited the money with the City Treasurer, and until instructed to do so by an order of record of the same body, I had no authority to draw a warrant upon the Treasurer for that or any other sum; that the demand should be made to you at your meeting to-night. They asked me to present the matter to you, Dr. Lapsley adding emphatically that they wanted action taken to-night and did not want it deferred. I said to them that there was no reason why the Council should wish to defer action as it was a matter in which none of its members could have any personal interest; that the only people whose interests were involved were the tax-payers, and that I had always been of the opinion that those interests should be the first consideration of all public officials or of those acting in any public capacity. I also said to them that I had fully explained not only to Mr. Arrsparger but also to Mr. Dow, the President of the Board, that if the money was allowed to remain where it was, it would mean a saving to the tax-payers of six or seven hundred dollars, while if the

place of deposit was changed it simply meant that the profits arising from the use of it would go to the Citizens Bank, a private corporation in which the people were not interested. Dr. Lapsley replied that what I said was true but the members of the Board felt that as Mr. Myall had acted as Treasurer for several years without receiving any salary, he was entitled to the use of this money; that he had allowed them to over-check and had loaned them money upon the note of the Board and they felt grateful to him for those reasons. I explained to them that as the law provided for no compensation for the Treasurer, it was impossible to pay him any in the absence of statutory provision; that the reason Mr. Myall was willing to act as Treasurer of the Board was that the money belonging to the School Fund was deposited with the financial institution of which he was the Cashier; that so far as the over-check and the notes were concerned, there could be no question of obligation in such matters when the Board paid six per cent interest for the use of the money.

I said to him also that the money was absolutely at the disposal of the Board of Education and that it was free to expend the fund for all legitimate purposes connected with the building of the school. He replied that their Treasurer did not have it and that his Board demanded that the money be turned over to that officer. In order to simplify matter, I said: "Dr. Lapsley, as I understand it, the only question in issue between the Board of Education and the Board of Council is whether the profits arising from the use of this money shall go to the tax-payers or to a private corporation in which the people have no interest." He replied: "That is the only question." This conversation was held in my office, in the presence of William Taylor and Louis Taylor, to whom I have read this statement and who will vouch for its accuracy. I only refer to them and offer the proof in advance in order that no question of veracity may arise between the members of the committee and myself. That demand coupled with the threat to institute suit if it is not complied with has been presented in writing to-night.

The only issue involved in this matter is the one tendered by me, on your behalf, and accepted for the Board of Education by its authorized and accredited representative, Secretary of that body. Upon that issue, I feel it incumbent upon me, as the Chief Executive officer of the city, to state my views. The law upon the question is not very clear. It is provided that the Council shall call the election and issue the bonds and it is also provided that the school can only be built with the concurrence of the Council. No specific mention is made of the disposition or control of funds realized from the sale of bonds and neither is the authority of the Council or the extent of the concurrence required, clearly defined. It is possible that under a strict construction of the statute, the Board of Education may have the technical right to demand that this money should be deposited with its Treasurer. On that question I am not prepared to express an opinion, but I have no hesitancy in saying that there is no provision—either express or implied—in the law which make it obligatory or in any way mandatory upon the Board of Education to insist upon making any change in the place of deposit of this money, when such change is detrimental to the interests of the tax-payers; more especially so when the fund, in its present situation, is absolutely at the disposal of the Board for the purpose of building the school. It is to be regretted that any controversy should have arisen over this question, but when both matters of principle and the interests of the tax-payers are at stake, neither should be sacrificed for the mere purpose of avoiding a conflict. Under such circumstances, it is, in my opinion, your duty to refuse to comply with this demand unless you are required to do so by a decision of the court of last resort. The opinion of the Court of Appeals upon such a question and upon such a proceeding should prove both interesting and profitable reading. If, after spending the money of the people to secure such a result, it is possible for the Board of Education, even under the forms of law, to take from the tax-payers a sum of money amounting to six hundred or seven hundred dollars and give it to a private corporation in which those tax-payers have no interest, then the Board of Education and its members should be required to assume the full responsibility of such action. You, at least, will have, not only the satisfaction of knowing that you have been faithful to the trust confided to you, but the approval, as well, of your own consciences and that of the people whose representatives you are, and whose interests you have sworn to protect.

Respectfully submitted,  
JAMES M. O'BRIEN, Mayor.

After the reading of the above communication, the Mayor respectfully submitted same to the consideration of the Council.

Mr. Parrish then made a motion to the effect that the demand of the School Board be refused because, if granted, it would be opposed to public policy. There were several seconds to the motion. The motion was then put and carried by a unanimous vote.

The sealed bids for lighting the city were then opened and read. They were referred to the Light Committee. Bids were made by the Paris Gas Company, Paris Electric Light Company, and the Cleveland Street Lighting Company.

After allowing the usual amount of claims the Council adjourned.

paper advertising to increase or force  
trade, the following facts are remarka-  
ble. During December the orders re-  
ceived by the Douglas Boot and Shoe  
Company, of Brockton, Mass., fell off  
in consequence of the business depres-  
sion following the panic. The advertis-  
ing manager of that large concern  
mentioned the matter to Governor  
Douglas, and asks his advice, whether  
under the circumstances they should  
place the usual amount of advertising  
during January and February, which  
are usually the slowest months in the  
year in the shoe business.Governor Douglas at once ordered an  
increase of 30 per cent in the amount  
appropriated for advertising, declaring  
that such an increase would help to  
overcome the unfavorable business out-  
look. There was considerable skepti-  
cism about the result amongst the prin-  
ciple employees of the Douglas Com-  
pany. But the result showed almost  
an immediate improvement in busi-  
ness, which is now averaging more  
than last year during these unusually  
dull months.Thus the business sagacity of Gov-  
ernor Douglas has overcome the hard  
times, and his optimism has proven  
an antidote to the Republican panic.The advertising manager of Gov-  
ernor Douglas explains the phenomenon  
of increased sales, when by all the  
rules of business there should have  
been a decrease, as entirely produced  
by the increased advertising. Other  
advertisers of shoes were drawing in  
their horns and many of their former  
customers were induced to patronize  
the Douglas Shoe because it was more  
than ever brought to their notice.It seems that persistent advertising  
pays, for last year nearly 8,000 news-  
papers carried the Douglas advertise-  
ment, and the profits of the business  
were larger than ever. The business  
managers of newspapers should point  
out these facts to those who decrease  
or decline to advertise at all when  
business is dropping and show them  
that persistent advertising pays and  
that increased advertising pays better,  
and that the newspaper is the best ad-  
vertising medium.**Helping the Trusts and Corpora-  
tions.**The National Civic Federation is ar-  
ranging for a delegation from Chicago  
of twenty-five members to attend the  
public hearings to be held before the  
Judiciary Committees of Congress on  
March 6th. The object of the Federa-  
tion is to approve proposed changes in  
the anti-trust laws, "so as to permit  
what are really harmless combina-  
tions." The railroads and trusts  
would thus be able legally to enter into  
freight and passenger agreements and  
labor contracts. The Federation is con-  
trolled by Republicans, and it would  
seem that the Republican leaders in  
Congress want some appearance of  
business backing before they act favor-  
ably on the bills now in the hands of  
the committees.So instead of tightening the law to  
control the trusts and corporations it  
is the evident intention of the Republi-  
can majority of Congress to give them  
more leeway. The only hope of the  
people is that the fear of the coming  
election may prevent the Republicans  
from helping out the trusts and corpora-  
tions. Keep your eye on your Sena-  
tors and Representatives that are Re-  
publicans—they need to be watched.**Tariff and the Trusts.**Former Governor William L. Doug-  
las, of Massachusetts, who understands  
the tariff question better perhaps than  
any other man in this country, de-  
clares that the "trust busting" busi-  
ness as conducted at Washington, is  
farfetched; that neither policies nor the  
methods of President Roosevelt are  
right.He believes that these policies and  
methods are intended to accomplish re-  
sults in the interest not of the people,  
but of the trusts. Gov. Douglas thinks  
as other Democrats do, that the only  
possible remedy for trust evils, is to  
repeal the tariff which enables trusts  
to monopolize the market.A lot of women with dark hair work  
patiently to bleach it yellow. Ever  
hear of a woman with yellow hair try-  
ing to make it black?**Press and Pulpit.**In the beginning of creation when  
darkness covered the earth, the fiat  
went forth, "Let there be light and  
light was;" when the first newspaper  
was issued, the fiat went out, "Let  
there be light," and the press has been  
enlightening the minds and hearts of  
men ever since—growing in far-reach-  
ing extent and breadth, in all penetrat-  
ing power and in effluence with the  
passing of year and the growing of  
human intelligence and knowledge  
which it has quickened and supplied.  
Recently, at Bristol, Conn., Rev. Ar-  
thur Goodenough, formerly a Brooklyn,  
N. Y., pastor, preached from the text,  
'The Lord gave the word; great was  
the company of those that published  
it.' He took for his subject, 'Is the  
Modern Newspaper the Ally of the pul-  
pit?' He answered his own question  
in the affirmative and supported his  
answer by arguments, incidents and  
illustrations. He said among other  
things:"When a heinous sin exists in the  
state, when a city is in the grip of  
grafters and thugs—at such a time the  
people usually are helpless. The news-  
paper uncovers the crime, points out  
the evil doers, brings them to punish-  
ment and stamps out the past.""It was the Brooklyn Eagle, by its  
fearless and able efforts, that broke  
up the villainous sway of the political  
thieves at Coney Island some years  
ago. We are always finding fault with  
the newspaper, but could we run it any  
better than it is run? Faulty as it  
may be, it is nevertheless ever on  
police duty, as the custodian of the  
people's safety, than any other human  
agency in our modern civilization.""Last winter Gypsy Smith, the great  
English evangelist, held meetings in  
Plymouth church and Central Congre-  
gational church, Brooklyn, N. Y.  
The borough of Brooklyn was stirred  
to religious fervor as perhaps never be-  
fore in its history. Thousands of peo-  
ple attended evening after evening;  
hundreds attended the noon meetings.  
The preaching was simple, sensible,  
saying. The Brooklyn Eagle reported  
every public utterance of Gypsy  
Smith, so what was heard by the  
thousands was read by the tens of  
thousand, and numberless letters came  
to the Eagle and the preacher thank-  
ing them for the good received by read-  
ing his sermons and addresses and  
prayers of Mr. Smith. The press was  
the ally of the pulpit. The value of  
such papers and their usefulness in the  
betterment and progress of mankind  
cannot be overestimated. What we  
want is that more papers will do the  
same thing. The better day is com-  
ing."The nearer the pulpit gets to the  
people; the more earnest in the work  
to help men and aid practically every  
effort for the better and more health-  
ful conditions among all the people  
irrespective of creed, the more aid will  
the pulpit receive from the press.  
The earnest pulpit can always get the  
heartly aid of the newspaper by deserv-  
ing aid then asking for such aid and  
acknowledging the services rendered.**Morgan and Rockefeller.**The "interests" that inspired the  
Aldrich currency bill will hardly know  
when the Senate gets through with  
it. "Whatever the minor eccentricities  
of its variegated texture" remarks  
the New York Journal of Commerce,  
"one vicious pattern will run all  
through it. It will provide for an  
emergency addition to the regular vol-  
ume of currency, secured by a deposit  
of miscellaneous bonds and heavily tax-  
ed. This will be a mere exaggeration  
of the radical defect of the existing  
system, gathering the corrupt humor,  
with which it is infected into a morbid  
excessiveness." This severe criticism  
from the leading business and financial  
newspapers of the country, should  
cause a Republican Congress to pause  
before it further complicates our cum-  
bersome structure by makeshifts.**Republican Bolters.**The Bishops of the African M. E.

"For several winters past my wife has been troubled with a most persistent and disagreeable cough, which invariably extended over a period of several weeks and caused her many sleepless nights," writes Will J. In November last the cough again put in an appearance and my wife, acting on the suggestion of a friend, purchased a bottle of Chamberlain's Cough Remedy. The result was indeed marvelous. ### Beckham's Manly Reply to Bradley's Answer to His Letter.

"Frankfort, Ky., Feb. 24th, 1908.  
Governor W. O. Bradley,  
Frankfort, Ky.

"Dear Sir—In answer to my letter of the 21st to you, proposing a definite plan by which the pending County Unit bill might receive prompt consideration, you fail to respond directly to my suggestion, and evade it by a lengthy and ill-tempered discussion of matters not relevant to it.

"Your first complaint is that I did not make it a 'personal' communication, and that I gave it to the press a half hour before you got it, 'thus demonstrating,' you say, 'beyond all question that it was your (my) purpose to make a grand stand play to the public.'

"You are incorrect. I sent you the original letter by special messenger before giving out copies to the newspapers, and those copies were not to be published until the following morning, affording you ample opportunity to answer in the same issue of the papers. But this prudence of yours seems to me trivial; I shall dismiss it without comment.

"Neither is your statement about my 'making a grand stand play to the public' deserving of mention, for everyone here well understands the reasons for your unwillingness to take the public into your confidence about these matters, and it is not difficult to account for your attitude on this temperance measure is publicly discussed.

"You say: 'Frankly, I have heard of no expressed doubt as to my position, I cannot answer for what the people generally out in the State may think about your position, as so many vicious misrepresentations about the situation here have been sent out to them by some of the newspapers, but I must admit that you are to an extent correct in your statement, for there is not an intelligent man on the ground here who has a doubt about your position or who does not believe that you made a deliberate deal with the liquor people whereby you were to deliver 40 Republican votes to delay or defeat the County Unit bill in exchange for enough bolting Democratic votes to unseat two Democratic members of the House, regardless of the merits of the cases, and to elect you to the United States Senate.

"It was openly charged in some of the morning papers of February 13th that you had made the deal. You have not denied it, your friends have not denied it; no one has denied it. On that same day, when Representative Wilson, a Democratic leader in the House, made a motion to advance the bill for consideration, a large majority of the Democratic members voted with him and forty-one Republicans voted against it.

"According to this report you had promised only forty in your contract, and whatever may be said about the infamy of such a nefarious bargain we must at least accord you credit for giving good measure. By reason of this alleged deal the consideration of the bill was again deferred.

"You complain that on the following day the House adjourned early to avoid taking up the contest cases. I applaud taking up the contest cases. I applaud the members and Speaker for doing so; their purpose was to block the consummation of this undignified and dishonorable transaction.

"On February 20th Mr. Wilson again made an effort to bring up the bill, and by Republican members under your control it was again delayed. You disclaim any influence over your members to carry out my proposition to you, and yet it is a notorious fact that on all these occasions, when this matter was up, you were on the floor of the House actively at work with them urging them to oppose the consideration of it.

"It is well known that a majority of the Republican members, as well as a majority of the Democratic members, of the House, favor the passage of this bill, and would promptly vote for it if left free to vote their real sentiments.

"I do not wish to criticize the Republican members in this, except to say that I think they owe too much to their party platform and to the demands of the people to allow themselves to be traded in such a way for your personal interest.

"Your position shows you are willing that the most solemn promise made in your platform and campaign last year may be bartered away in order that you may sit for six years as a Senator from Kentucky in the Federal Congress. Is the honor of such a position equal to the dishonor of such a method to secure it?

"The contents of your letter show that you are most interested in the seating of two Republicans in the place of Democrats in the House, that they may vote for you, than you are in any legislation before the General Assembly, and especially the County Unit bill which your party so positively promised in the campaign last fall.

"That I may not misrepresent you let me quote exactly a paragraph in your letter to me. You say: 'In order that the Unit bill may reach a prompt decision allow me to suggest that the contents be brought to an immediate conclusion, after which the report of the Committee on Public Morals may be made and immediate action taken thereon.'

"That is the only tangible response you make to my definite proposition to you.

"I am surprised, my dear Governor, that a politician so shrewd and astute as you should make such a bold and indefensible proposal. In other words you are willing, if you are given these two more votes in your race for Senator, to permit the General Assembly to take up for consideration this measure which, it was claimed in the campaign, was the keynote in the arch of the Republican platform.

"And yet in your letter to the Anti-Saloon League Committee you charged that it was the Democratic nominee for Senator who was prostituting this bill to the service of his own interest! You know, of course, as I do, that there is no merit in these contest cases, and that they would not be prosecuted for a minute except for the fact that you 'need the votes,' and the liquor people have promised them to you if you will prevent any temperance legislation in this session.

"Your reference to an alleged statement of mine given out by some member of the Anti-Saloon League, in your discussion of a proposed consti-

tutional amendment have no bearing upon this case. The question of the authenticity or correctness of that statement could not affect the passage of the County Unit bill.

"Whether or not it did me an injustice of your reasoning upon it may be fallacious is not an issue at this time. Let us deal fairly in this matter. I put a plain, straightforward proposition to you. At the risk of repetition let me briefly state it.

"The County Unit bill is one of the most important measures now before the General Assembly. Both parties are committed to its passage. Your letter to me, as well as other irrefutable proof, shows that you are delaying its consideration on account of the contest cases and the Senatorial race.

"You and your allies have charged that I have been using it as a club to aid my candidacy. I promptly proposed in answer to your charge that we agree to hold in abeyance our Senatorial contest until this bill could pass, and that each of us urge his friends to support it. You dodged it. I again propose it and ask from you a positive acceptance or refusal.

"It can pass both Houses and reach the Governor this week if you will agree. There will then be two more weeks of the session in which the Senatorial race can be resumed, and at least ten days balloting before Mr. McKnight's successor could reach here. Your suggestion, therefore, that I want to wait until then is not well founded.

"You intimate, too, the possibility that my proposition was prompted by the thought that there was some 'disintegration in my ranks' and that I might want time to 'obtain recruits.' No, you are again mistaken, for if such disintegration existed the sooner it culminated the better it would be for me, and the causes of it would be such that a few days' time could not remedy it.

"I have no such fears. If I should meet defeat I could face it with the same equanimity and calmness with which I would look upon victory, and I would infinitely prefer defeat to a victory that carried the stain upon its title or was purchased at the price of my party's honor and the sacrifice of my own self-respect.

"I do not doubt the honor and loyalty of those faithful friends who have stood by me in this contest and who have proven themselves immovable to the seductive influences of those powerful interests which have been so bitterly and actively fighting me.

"In conclusion let me say that the opportunity will again be offered you on the assembling of the House, by a motion from the Democratic side, to show whether or not you and your party followers have forgotten or betrayed the pledges you made to the people of Kentucky on this question.

Very respectfully,

J. C. W. BECKHAM."

### District Board of Tobacco Society Meet.

The District Board of the Burley Tobacco Society met at Winchester Tuesday. Delegates from most of the counties were present. Secretary G. A. Brooks reported that up to date six million pounds of the pooled tobacco have been sold and that several deals are now pending.

President Clarence Lebus announced that he had received a telegram from a number of buyers saying they would be there to inspect the samples of the pooled tobacco. Several of these buyers represent some of the largest independent factories in the United States.

The report of the delegates on the number of acres which have been signed not to raise any tobacco this year shows eighty-two thousand acres pledged, with several of the counties not reported. The total number of acres pledged, it is expected, will reach one hundred thousand, out of about one hundred and fifty thousand acres in Kentucky heretofore cultivated in tobacco. Col. Joel A. Fort, of Tennessee, and Hon. Claude Thomas, of Bourbon county, addressed the delegates at the court house Tuesday night.

Plans have been made for an all day meeting at Lexington next Saturday, February 29th. Addresses will be made by Congressman A. O. Stanley, Col. Joel B. Fort, of Tennessee, and others. Each county will be urged to have a good sized delegation present. The speaking will begin at the Auditorium in Lexington at 1 o'clock in the afternoon and will continue throughout the day.

## Interesting Trial.

There was quite an interesting trial on in Judge Dundon's Court Wednesday. Mr. W. E. On Tuesday night, Mr. Grover Hughes, of Lexington, was a guest of the house, and had taken from his room a gold watch, valued at \$250, and \$15 in cash. Strong circumstantial evidence pointed to Mack as the thief, and Mr. Hughes swore out a warrant for his arrest.

He was taken before Judge Dundon and arraigned, his trial being set for Tuesday morning at 10 o'clock. Being unable to give \$200 bond he was remanded to jail to await his trial.

## Big Damage Suit Filed.

On yesterday, Mrs. Nancy N. Shropshire, of Centerville, through her attorneys, C. Arnsperger and Judge Harmon Stitt, filed suit for \$10,000 damages against Mr. G. R. Burberry, of Centerville. The parties to the suit are close neighbors, living directly across the pike from each other, and the filing of this suit is but the culmination of bad feeling between the parties of several years' standing.

The petition of Mrs. Shropshire alleges that on the day of February, 1905, the defendant, G. R. Burberry, did unlawfully break into a room of the plaintiff's home, and then and there assault, beat and bruised her about the head and body, with his fists, knees and feet, and thereby grievously bruised and wound her face, neck, back and chest and other parts of her body from which she suffered great pain and inconvenience, and by reason of said wound and injuries she was made sick and faint and her nervous system shocked and enfeebled; and by reason whereof the plaintiff has suffered and still does suffer great pain in body and mind, and not only suffered great pain, both in body and mind, but has suffered great humiliation in her feelings, etc. Wherefore, she prays for judgment against said defendant, G. R. Burberry, for \$10,000, for her costs hereinafter all other proper relief.

## The 20th Century Department Store.

Mr. and Mrs. Harry Simon have just returned from the East where they purchased one of the most complete lines of goods that will be found in any of the largest department stores in Kentucky. The 20th Century Department Store would be a good name for the establishment run by these up-to-date merchants.

Mr. Simon is remodeling the second floor of his large business house and it will be devoted in the future exclusively to ready-to-wear suits for the ladies, of which he and his estimable wife selected the largest and most complete stock ever brought to this city.

Ladies, don't fail to see Mr. Simon's spring stock of goods before purchasing elsewhere, for he will not only excel in the goods but the price will defy competition.

## Make It Yourself.

There is so much rheumatism here in our neighborhood now that the following advice by an eminent authority, who writes for readers of a large Eastern daily paper, will be highly appreciated by those who suffer:

Get from any good pharmacy one half ounce Fluid Extract Dandelion, one ounce Compound Syrup Sarsaparilla, Shake these well in a bottle and take in teaspoonful doses after each meal and at bedtime; also drink plenty of good water.

It is claimed that there are few victims of this dread and torturous disease who will fail to find ready relief in this simple home-made mixture, and in most cases a permanent cure is the result.

This simple recipe is said to strengthen and cleanse the eliminative tissues of the kidneys so that they can filter and strain from the blood and system the poisons, acids and waste matter, which cause not only rheumatism, but numerous other diseases. Every man or woman here feels that their kidneys are not healthy and active, or who suffer from any urinary trouble whatever, should not hesitate to make up this mixture, as it is certain to do much good, and may save you from much misery and suffering after while.

Our home druggists say they will either supply the ingredients or mix the prescription ready to take if our readers ask them.

## LIVE STOCK AND CROP NOTES

—A pair of mules were withdrawn at a sale in Ashland at \$675.

—Eggs from the best of two-year-old layers are considered best for hatching.

—D. B. Chatham, of Harrodsburg, sold sixty bushels of clover seed in Lexington last week at \$8.50 a bushel.

—An argument in favor of a variety of food is found in the fact that no two animals will give exactly the same results from the same rations.

—While there is a great advantage in securing good blooded stock, the profits of the herd or flock depends equally as much on the care as the blood.

—A farmer's ability is no longer rated by the horse power he can wield, brute force is now supplanted by brain power on the farm as well as in other callings.

—In Germany the vaccination of cattle against black leg, a fatal disease, is becoming general and very effective, as only three losses in five years are reported.

—To sell corn off the farm sells the fertility off the place, but fed to the stock it returns a double profit, in fattened cattle and hogs and in manure.

—In the vicinity of Lonohe, Ark., about 6,000 acres of prairie land were planted to rice and the yield was about 4,000,000 bushels of rice, valued at \$500,000.

—Mark it down as a safe rule that the bleating calf lacks something in the way of food water or care to insure its comfort. However there are calves that will bleat almost continuously and for no other reason apparently than because they are of that uneasy, restless spirit which marks them as undesirable to raise for dairy products. Get rid of such animals.

—Lord John Russell held farming in high esteem. He said: "In a moral point of view, the life of the agriculturist is the most pure and holy of any class of men; pure, because it is the most healthful, and vice versa hardly find time to contaminate it; and holy because it brings the Deity repudially before his view, giving him thereby the most exalted notions of supreme power, and the most enduring view of the divine benignity."

—At Georgetown court day the horse and mule market was better than at any time for months past, but the cattle market was very dull. About 200 cattle were on the market, but very few changed hands. One bunch of 18 head, averaging about 1,000 pounds, brought \$4.62 per hundred. Another bunch of scrubs brought \$4. Gentry and Thompson, of Lexington bought thirty odd mules at prices ranging from \$125 to \$200. Ward Lutes, Lexington, bought about half a dozen head of cotton mules at from \$100 to \$150.

## A Most Valuable Agent.

The glycerine employed in Dr. Pierce's medicines greatly enhances the medicinal properties which it extracts from native medicinal roots and holds in solution much better than alcohol would. It also possesses medicinal properties of its own, being a valuable demulcent, nutritive, antiseptic and antiferment. It adds greatly to the efficacy of the Black Cherry-bark, Bloodroot, Golden Seal root, Stone root and Queen's root, contained in "Golden Medical Discovery" in subduing chronic, or lingering coughs, bronchitis, throat and lung affections, for all of which these agents are recommended by standard medical authorities.

In all cases where there is a wasting away of flesh, loss of appetite, with weak stomach, as in the early stages of consumption, there can be no doubt that glycerine acts as a valuable nutritive and aids the Golden Seal root, Stone root, Queen's root, and Black Cherrybark in promoting digestion and building up the flesh and strength, controlling the cough and bringing about a healthy condition of the whole system. Of course, it must not be expected to work miracles. It will not cure consumption except in its earlier stages. It will cure very severe obstinate hang-cough, chronic coughs, bronchitis and pulmonary troubles and chronic sore throat. In acute cases, in acute cases it is not so effective. It is in the lingering hang-on coughs, or those of long standing, even when accompanied by bleeding from lungs, that it has performed its most marvelous cures.

Prof. Finley Ellingwood, M. D., of Bennett, Med. College, Chicago, says of glycerine:

"In dyspepsia it serves an excellent purpose. Holding a fixed quantity of the peroxide of hydrogen in solution, it is one of the best manufactured products of the present time in its action upon enfeebled, disordered stomachs, especially if there is ulceration or catarrhal gastritis (catarrhal inflammation of stomach). It is a most efficient preparation. Glycerine will relieve many cases of pyrosis (heartburn) and excessive gastric (stomach) acidity."

Send to Dr. R. V. Pierce, of Buffalo, N. Y., for free booklet telling all about the native medicinal roots composing this wonderful medicine. There is no alcohol in it.

## Want Tobacco Farmers in Ohio.

Handbills advertising for experienced tobacco growers to go to Ohio to raise white burley tobacco were scattered among the crowds at the tobacco warehouses in Lexington Saturday. These advertisements, it is understood, were issued by the American Tobacco Company, and are being distributed by the agents of the trust through the Burley tobacco district of Kentucky.

The bills state that all experienced tobacco growers who will go to certain sections of Ohio will be furnished with as much land as they care to handle on which to plant tobacco and will be given every assistance and encouragement in raising the crop.

The Society of Equity people claim that this action is a bluff on the part of the trust to scare the Burley growers of Central Kentucky and back up those who claim that if a crop is not raised here in 1908 it will be raised in other States and develop a rival territory for the production of tobacco.

It is reported, however, that a number of tobacco tenants of Fayette county have decided to accept the offers held out and will soon move to the tobacco district of Ohio.

There are no newsboys in Spain; women sell newspapers on the streets.

## The Chrysanthemum.

Both in China and Japan is the chrysanthemum a great favorite. It is said that Chinese gardeners to whom the plant was first known will allow nothing to deter them from its culture. They will even give up their situations if forbidden by their employers to grow it. Chinese emigrants, too, take this "flower of their hearts" with them to other lands and cultivate it affectionately in their exile as a reminder of their native country. There is a Chinese "Everything comes to him who knows how to wait" which has been Anglicized as follows:

In the second month the peach tree blooms,  
But not till the ninth the chrysanthemums,  
So each must wait till his own turn comes.

## Fighting Geese.

In Russia pits for cock fighting are unknown, but "goose pits" some sixty years ago were common throughout that mighty kingdom. The effect of this can be seen today in the geese which are indigenous to the country. The Arsasmas and the Tula varieties particularly showing to a marked degree the fighting characters of their ancestors. The Arsasmas gander has a bill which is entirely different in form from that of the geese known in any other part of the world. This special structure enables the bird to take a firm grip on the neck or back of its antagonist.

The dizziness had been as exact result of kidney trouble yet not until my accident did I take my condition seriously. I began to doctor but gained no good results until I procured Doan's Kidney Pills at J. A. Wilson's drug store and began using them. I take pleasure in telling of the wonderful improvement they have made in my case and I can recommend them to all who suffer with kidney trouble in any form."

## A Hustling Commercial Club.

The Commercial Club of Winchester numbers about four hundred and it is a hustler too. No city in the State approximates the Winchester Club in either size or effectiveness when population is considered. Louisville with a population twenty-five times as large, has a club of about one thousand. Is it not truly a wonder that Paris cannot have a Commercial Club?

## New Theories on Dog Tax Law.

Gov. Wilson has a correspondent with new theories on the subject of the dog-tax law and he has written to the Governor making suggestions. He is of the opinion that the tax is a license and gives the dogs the right to kill the sheep. The following is the letter, the name of the author being withheld:

Waynesburg, Ky., R. F. D. No. 9, Feb. 10.—Gov. Willson, Frankfort, Ky.—Dear Sir: I take the liberty of addressing you on a matter I consider important for Kentucky. I refer to the dog and sheep law, which is very promising in this vicinity at this time, which is fast being depopulated of sheep, the owners being reimbursed from a fund created for that purpose by taxing each dog \$1 per year. Is not a tax a license? In other words, when I pay \$1 into this fund for my dog does it not amount to a license for him to kill sheep for one year?

In my opinion my dog availed himself of his privilege and killed my neighbor's sheep. The neighbor got pay for his sheep. My dog had his license all right. So it is a legitimate transaction all round. I am under no obligations to my neighbor & my dog is square on the books with a lawful charge against him. This alright as far as the dog and neighbor is concerned, but do you not think it rather hard on the sheep, leaving them as it does without any protection whatever, and don't you think they will soon be a thing of the past in Ky.? If I am right please place this matter before the Legislature in proper form; so that one of Kentucky's growing industries may be saved from destruction. If I am wrong set me right. Yours, etc."

A German biologist has calculated that the human brain contains 300,000,000 nerve cells, 5,000,000 of which die and are succeeded by new ones every day. At this rate we get an entirely new brain every sixty days.

## THE LIVER QUARANTINE

"TAKING HIS MEALS OUT." Hurried eating has ruined many a man's stomach. The digestion-destroying process is gradual, often unnoticed at first. But it is only a short time until the liver balks, the digestive organs give way, and almost countless ills assail the man who endeavors to economize time at the expense of his health. A torpid liver causes a quarantine of the entire system. It locks in the diseased germs and body poisons and affords them full play, inviting some serious illness. In families where August Flower is used, a sluggish liver and constipation are unknown, so are all stomach ailments, as well as indigestion, dyspepsia, heartburn, headaches and kidney and bladder affections. No well-regulated family should be without this standard remedy. Two sizes, 25c and 75c. All druggists.

## New Directory.

At last Paris is to have a real directory, and one that will contain much valuable information to residents of both city and county. In addition to being a complete resident and business directory of Paris, Millersburg and North Middletown, the book will contain the name and address of all rural route residents of the entire county.

The book is being compiled by the Inter-State Directory Co., of Marion, Ind., and the work here is in charge of Mr. Frank Saymenier, who, with his assistants, have just completed the information on a book for Winchester. The house enumerators started here yesterday and it is especially important that our citizens assist in making this work accurate and complete by readily responding to the queries when the enumerators call. They ask no impertinent or useless question, but want only information that is necessary to make the book accurate and complete.

Paris has long needed an accurate directory of this kind and the help of the business men and residents of the city is urged to make it a success, for without this co-operation it cannot be made the success it deserves. The book will be cloth bound and contain between 300 and 400 pages, and a copy should be found in every store and office and many of the homes.

## One of Paris' Most Progressive Industries—Important For The Farmers of Bourbon.

The Paris Creamery, located in the Massie Addition, near the Ice Plant, will begin operations on March 3. It is hoped and urged that the good people of Paris and County will be present at the creamery on that day, and it is especially urged that every one bring to the Creamery on that day all the good, sweet milk it is possible to procure, to use in the trial test of the Creamery machinery. This is a new industry in Bourbon and should interest every one; in some counties it has already rapidly grown to be a most important business.

The owners of cows are insured a certain market and the highest market price for all the good milk that can be furnished.

The Paris Creamery will have an expert here by Feb. 14, to visit the farmers and explain to them anything they may wish to learn about the operation of the business.

It is again urged that every one who can will please be present on March 3, and they are asked to bring as much milk as they can get. The wives of the farmers, and the ladies who are interested in the Creamery are invited to be present.

BY ORDER OF THE COMMITTEE.
